About

HELP4TN is a web portal that provides Tennesseans with a broad range of legal and social services resources. The Tennessee Alliance for Legal Services (TALS) created this website in partnership with West Tennessee Legal Services. A Technology Initiative Grant from Legal Services Corporation made the project possible.

TALS partners with legal service providers to compile legal information on key issues. Additionally, TALS works with the Tennessee chapter of The National Association of Social Workers to build out content. This effort strengthens the social services referral network to families and children statewide.

By combining legal and social services resources in an easy to use format, the HELP4TN site allows Tennesseans to address these two critical and often connected needs

For feedback or questions about the project or the site or to request flyers to share with clients, contact HELP4TN Program Manager Tim Hughes at thughes@tals.org.
