

HELP4TN

Find legal and social service resources in Tennessee

www.help4tn.org

About

HELP4TN is a web portal designed to provide Tennesseans with a broad range of legal and social services resources in a one-stop venue. The site was conceived and created by the Tennessee Alliance for Legal Services (TALS) in partnership with West Tennessee Legal Services through a Technology Initiative Grant from Legal Services Corporation.

TALS partners with legal service providers to compile legal information on key issues, and TALS partners with The National Association of Social Workers, TN chapter, on content to strengthen the social services referral network to families and children statewide.

By combining legal and social services resources in an easy to use format, the HELP4TN site allows Tennesseans to address these two critical and often connected needs

For feedback or questions about the project or the site, to request flyers to share with clients, contact HELP4TN Program Manager Tim Hughes at thughes@tals.org.
